

MCQ

1. Cancer in the human body occur due to
 1. Exposure to certain chemicals
 2. Radiation
 3. Mutations in the genes
 4. All of the above
2. CNN stands for
 1. Convolution neutron network
 2. Convolution neural network
 3. Chinese neural network
 4. Computer neural network
3. CNN can be used to extract
 1. Low-level features
 2. High-level features
 3. Edges and corners
 4. All of the above
4. RPN stands for
 1. Recurrent propgation network
 2. Region proposal network
 3. Recurrent proposal network
 4. None of these
5. Relu is a
 1. Activation network
 2. Squashes values between 0 and 1
 3. Squashes values between 1 and -1
 4. Does nothing

Ans:

1-4

2-1

3-4

4-2

5-1 and 2.
